

**Basic Information :**

**Name :** Cecile Hanna  
**Title :** Lecturer

Assistant Professor of Statistics at Faculty of Commerce & Business Administration

**Education :**

Certificate	Major	University	Year
PhD	Statistics	Cairo University	1992
Masters	Statistics	Cairo University	1983

**Teaching Experience :**

Name Of Organization	Position	From Date	To Date
Faculty of Commerce and Political Science, Cairo University	Associate Professor	01/01/1993	01/10/2012
Faculty of Commerce and Political Science, Cairo University	Assistant Lecturer	01/01/1984	01/10/2012

**Research :**

- Throughput of Queueing Networks on based Discrete Review Policy
- Cost Analysis of a two dissimilar-Unit Cold Standby Redundant System Subject to Inspection and Random Change in Units
- Multi-server queuing system with general distribution for service time and finite waiting time
- Some Approximate Formulas for Tandem Queues
- On Poisson Queue with Three Heterogeneous Servers
- The Problem of the queueing System E / M / I with finite Waiting Room and Additional Servers for a Longer Queue
- Dependent and Correlated Inflows in the two Steams model
- Optimal Control Output Policies of a Reservoir Subject to Wiener Inputs
- Some Extensions of Dams with Inputs Forming a Stationary Process
- N.A

**Conference :**

- Modeling and Analyzing a Bank Queueing System (a case study)
- Bayesian Estimation for Dependent Transition Probabilities via MCMC Techniques
- Point Estimation with Some Applications of Queueing Systems

**Awards :**

Award	Donor	Date
N.A.	N.A.	01/01/2009
