

Basic Information :

Name : Moataz El-Shafeiy

Title : Lecturer

I am interested in the University teaching career as well as research activities and publication. Since 2002 I have got the opportunity to work as a TA for Cairo University-Geology department. During this time period, I taught many subjects in the field of Geosciences including microscopy, geochemistry, sedimentation and organized some field trips. I got my PhD at Sept. 2012 using the Sandwich Exchange program offered by the DAAD between Bremen (Germany) and Cairo Universities. I got another post-doc fellowship at Georg-August University in Göttingen (Germany) and I cooperated with other colleagues at University of Vienna and University of Michigan. My main research area is studying the organic-rich sedimentary rocks of Cretaceous and younger ages using the different organic and inorganic proxies. Administratively, I was occupying a position as a coordinator for the "Petroleum Geoscience Program" of Cairo University since Oct. 2014 to Jan. 2017.

Education :

Certificate	Major	University	Year
PhD	Geology Department	Cairo University - Faculty Of Science	2012
Masters	Geology Department	Cairo University - Faculty Of Science	2007
Bachelor	Geology - chemistry	Cairo University - Faculty Of Science	2001
