

Faculty of Commerce & Business Administration

Human Resources Management (1)

Information :

Course Code : MGT 305

Level : Undergraduate

Course Hours : 3.00- Hours

Department : Department of Business Information Technology

Area Of Study :

Human resource management is concerned with managing people effectively in the workplace. This function is carried out by most managers in organizations. However, it is the duty of a specialist human resource manager to provide advice, guidance, assistance and support on employment matters to all those who have direct responsibility for the management of people in the organization. The main function of a human resource department is to ensure the recruitment, selection, training, development and retention of staff necessary for the efficient and effective management of the organization. The purpose of this course is to emphasize these skills and knowledge in the field of human resource management.

Description :

The contributions of behavioral science to motivational systems and to relationships among individuals and organizations are examined. The class considers means for developing, utilizing and remunerating workers. The responsibilities and staff functions within personnel administration are covered with job analysis, planning, recruitment, training, appraisal, and career development and compensation systems.
