

Faculty of Economics & Political Science

Comparative Local Systems

Information :

Course Code : PAD 203

Level : Undergraduate

Course Hours : 3.00- Hours

Department : Department of Political Science

Instructor Information :

Title	Name	Office hours
Lecturer	Nevine Henry Rezk Saad Wasef	1
Lecturer	Shaimaa Magued Mohamed Helmy Abdulfattah	

Area Of Study :

This course introduces concepts of local systems, local government and local administration. It presents a comparative analysis of different local government systems to show their advantages and disadvantages. In addition, students in this course overview local government reforms in some developed countries to provide them with insights on the factors that have driven local government reforms and the effects of those reforms. Students study the contemporary trends in administrative decentralization. The course also describes the structure, funding functions and problems of local government in some selected countries with important application of local systems' problems and development in Egypt.

Course Goals:

- Introduce students to the field of comparative local systems and discuss the nature, usefulness of comparative local government study.
- Explore the levels of the local government and the concept of decentralization.
- Describe the structure, functions and problems of local government in Egypt and some selected countries.
- Focus on the local Administration Reform and Development Administration

Description :

This course introduces concepts of local systems, local government and local administration. It presents a comparative analysis of different local government systems to show their advantages and disadvantages. In addition, students in this course overview local government reforms in some developed countries to provide them with insights on the factors that have driven local government reforms and the effects of those reforms. Students study the contemporary trends in administrative decentralization. The course also describes the structure, funding functions and problems of local government in some selected countries with important application of local systems' problems and development in Egypt.

Course outcomes :
