

About Us

The Department of Continuing Education (DCE) of Future University in Egypt (FUE) offers lifelong learning and skill development opportunities. We are committed to bridging the gap between the graduates' skills and the market requirements as well as fulfilling the training needs of professionals seeking career advancement or a career shift. Irrespective of what your training preferences are, our customized programs (CP) will render solutions to your workplace.

Whereas 'doing' is the key to effective learning, our priority is to accommodate your training profile in terms of content, competence, schedule, location, hours and duration. We guide and assist you in tailoring the training course and/or program that fits your professional development needs. Our trainers are qualified experts in their fields. The flexibility of our customized programs includes delivery options to suit both organizations and individuals. Business, Computer and IT, Economics and Political Science, Engineering and Technology, English, Oral and Dental Medicine, as well as Pharmaceutical Science Studies comprise the seven study programs through which our training courses are offered. The listed courses are by no means exclusive; if you are interested in a course that is not mentioned, just ask.
