

Basic Information :

Name : Alyaa Ragaie
Title : Assistant Professor

Alyaa Ragaie Hassan works as an Assistant Professor teaching Zoology and Histology at the Faculty of Dentistry at Future University in Egypt

Education :

Certificate	Major	University	Year
PhD	Histochemistry and Cell biology	Ain Shams University	2003
Masters	Histochemistry and Cell biology	Research institute Alex.	1993
Bachelor	Biology and Zoology	Alexandria University	1988

Research :

mc grawhill brooker biology book 2nd edition

immunohistochemical localization of alfa -fetoprotein in liver of adult male albino rats treated with homocysteine and trimethylglycine

immunohistochemical localization of alfa -fetoprotein in liver of adult male albino rats treated with homocysteine and trimethylglycine

Assessment of the Effect of Bone Marrow and Adipose – Derived Stem Cells on the Healing Of Induced Bone Defects on Irradiated Albino Rats

Adipose Stem Cells as Alternatives for Bone Marrow Mesenchymal Stem Cells in Oral Ulcer Healing

New Approach of Bone Marrow Derived Mesenchymal Stem Cells And Human Amniotic Epithelial Cells Applications In Accelerating Wound Healing Of Irradiated Albino Rats

New Approach Of Bone Marrow-Derived Mesenchymal Stem Cells And Human Amniotic Epithelial Cells Applications In Accelerating Wound Healing Of Irradiated Albino Rats

Influence of mesenchymal stem cells and vitamin E on chemically induced hepatocellular carcinoma in male albino rats

Efficacy of Equine Demineralized Bone Matrix in treating oral cyst following enucleation: A histologic and clinical study in humans

The Efficacy of Combined Application of intralesional cortisone and Adipose Derived Stem Cells in the Quality of Healing of Oral Ulcer in Dogs.
