

Basic Information :

Name : Nabila Adieb
Title : part-time Professor

Nabila Adieb Abdel Messieh Guirguis works as a part-time Professor at the Faculty of Dentistry at Future University in Egypt

Education :

Certificate	Major	University	Year
PhD	Embryology	Leningrad Academy of Science	1978
Masters	Histology	Cairo University	1972
Bachelor	Medicine	Cairo University	1968

Teaching Experience :

Name Of Organization	Position	From Date	To Date
Faculty of Medicine, Cairo University	Head of Anatomy Department	01/01/2000	01/01/2006
Faculty of Medicine, Cairo University	Professor in Anatomy Dept	01/01/1989	01/01/2014
Faculty of Medicine, Cairo University	Assistant Professor in Anatomy Dept	01/01/1984	01/01/1989
Faculty of Medicine, Cairo University	Lecturer in Anatomy Dept	01/01/1979	01/01/1984
Faculty of Medicine, Cairo University	Assistant Lecturer in Anatomy Dept	01/01/1972	01/01/1979

Research :

- The Development of the Choroid plexuses and apertures of the fourth ventricle
- A Histological Study on the Alkaline Phosphatase Activity in Certain Organs of Male Albino Rat Following Disprin Administration
- A Contribution on Morphological and Histochemical Changes in Some Organs of Albino Rat Following Injection of Ketamine
- A Contribution on Intrapulmonary Ganglia
- A Contribution on the Muscle Spindles of Human Index Interosseus Muscles
- Histogenesis of Human Suprarenal Gland
- Intramural Ganglia of Accessory Male Sexual Organs
- Anatomical Study on the Distribution of the Facial Nerve in the Human Face and its Surgical Application During Temporomandibular Joint Exposure
- The Development of Anterior Abdominal Wall in the Light of its New Anatomical Description
- Some Observation on the Obliteration and Restoration of the Uterine Lumen During Pregnancy in Golden Hamster and Albino Rat (a comparative study)
- Morphological Changes of Epithelium During the Development of the Urinary Bladder
- Nucleic Acid and Total Protein Contents in Some Organs of Rat Following Disprin Injection
- Cytoarchitectural Organization of Intramural Ganglia of Human Myometrium
- A Contribution on the Arterial Supply of the Human Pancreas
- The Arterial Patterns Supplying the Human Parotid Gland

The Patterns of Renal Calyces and their Arterial Supply.

A Comparative Histological Study of the Musculature of the Common Bile Duct

A Comparative Histological Study of the Musculature of the Uretrovesical Junction and Trigone in Man and Some Animals

Histological Study of the Liver, Pancreas, kidney and suprarenal glands of Albino Rat under the Effect of Hydroxyprogesterone acetate.

Anatomical Study of the Human Papillary Muscles

Anatomical Study of the Posterior Gastric Artery in Man

A Correlation of the Changes in the Fine Structure of Leydig Cells in Swiss Albino Mice Infested by *S. Mansoni* with Schistosomal Endocrinopathies

Anatomical and Statistical Study of the Human Mastoid Emissary Foramina and Canals

Anatomical Study of the Human Extensor Tendons and Extensor Digital Expansion

Histopathological Study of the Lung, Heart, Liver and Pancreas of the Albino Rats after a Single Dose Whole Body Gamma Irradiation

Blood Supply of Islets of Langerhans in Man

Anatomical Study of the Foramina Transversaria and Bony Bridges in Human Atlas Vertebrae

The Effect of Maternal *Naja nigricollis* envenomation on the Placenta (an experimental study)

Relations of the Capsule of the Temporomandibular Joint to the Masticatory Muscles

The Protective Role of Antioxidants Against Acetaminophen Hepatotoxicity in Mice

Awards :

Award	Donor	Date
Ideal Professor	Future University In Egypt	01/01/2004
