

Basic Information :

Name : Noha Khalil
Title : Associate Professor

Pharmacist Noha Hassan Khalil, Lecturer of Pharmacognosy, Pharmacognosy and Medicinal Plants Department, She got her M.Sc. degree at Ain Shams University

Education:

Certificate	Major	University	Year
PhD			2018
Masters			2015
Bachelor			2008

Teaching Experience:

Name Of Organization	Position	From Date	To Date
FUE	Associate Professor	01/03/2009	Current
Glytone Dermocosmetics	Medical Representative	01/01/2008	01/01/2009

Researches / Publications :

- Sustainable Treatment of Oral Traumatic Ulcers with Licorice Containing Hydrogels: Integrating Computational Modeling, Quality by Design, Green Synthesis, and Molecular Biological Evaluation
- Antiproliferative and apoptotic activities of tomato bioactive metabolite on MDA-MB-435 cell line: in silico molecular modeling and molecular dynamics investigation.
- Ultra-Performance Liquid Chromatography Coupled with Mass Metabolic Profiling of Ammi majus Roots as Waste Product with Isolation and Assessment of Oral Mucosal Toxicity of Its Psoralen Component Xanthotoxin
- A comprehensive review on the medicinally valuable endosymbiotic fungi *Penicillium chrysogenum*
- Effect of Sun Drying on Phytoconstituents and Antiviral Activity of Ginger against Low-Pathogenic Human Coronavirus
- Salicylic Acid Spraying Affects Secondary Metabolites and Radical Scavenging Capacity of Drought-Stressed *Eriosephalus africanus* L
- GC-MS Chemical Profiling, Biological Investigation of Three *Salvia* Species Growing in Uzbekistan
- Correlation of Glucosinolates and Volatile Constituents of Six Brassicaceae Seeds with Their Antioxidant Activities Based on Partial Least Squares Regression
- Assessment of Conventional Solvent Extraction vs. Supercritical Fluid Extraction of *Khella* (*Ammi visnaga* L.) Furanochromones and Their Cytotoxicity
- Immune Regulatory Effect of Locally Isolated *Nostoc* Algae Lysate During HCV Infection
- Altitude impact on the chemical profile and biological activities of *Satureja thymbra* L. essential oil
- Bactericidal activity of Myrrh extracts and two dosage forms against standard bacterial strains and multidrug-resistant clinical isolates with GC/MS profiling.
- Ammi Visnaga* L., a Potential Medicinal Plant: A Review.
- Bactericidal property of myrrh oil and two formulations against standard bacterial strains and multidrug-resistant clinical isolates with GC/MS chemical profiling.
- Chemical profiling, biostatic and biocidal dynamics of *Origanum vulgare* L. essential oil
- Chemical composition and antimicrobial activity of the essential oils of selected Apiaceous fruits

Bioassay guided fractionation and cytotoxic activity of *Daucus carota* var. *boissieri*

Foliar spraying of salicylic acid induced accumulation of phenolics, increased radical scavenging activity and modified the composition of the essential oil of water stressed *Thymus vulgaris* L

Chemical composition and antimicrobial activity of essential oils of selected Apiaceous plants growing in Egypt

Chemical Composition and biological activity of the essential oils obtained from yellow and red carrot fruits cultivated in Egypt

Chemical composition and biological activity of essential oils obtained from yellow and red Carrots cultivated in Egypt

Chemical composition and biological activity of essential oils obtained from yellow and red Carrots cultivated in Egypt
