

Faculty of Engineering & Technology

Engineering Geology

Information :

Course Code : SCM 313

Level : Undergraduate

Course Hours : 2.00- Hours

Department : Department of Structural Engineering & Construction Management

Instructor Information :

Title	Name	Office hours
Associate Professor	Ahmed Mohamed Abd Elkhaleq Ebid	2
Assistant Lecturer	MUHAMMAD DIAB SAAD ELDIN ABDLAAL	2
Assistant Lecturer	Ahmed Mohamed Abdel Moniem Mohamed Soliman	22

Area Of Study :

Upon successful completion of this course, the student should be able to:

- Understand the basic concepts and main principles
- Calculate the values of the essential terms
- Apply Codes provisions
- Carry out the related tests

Regarding formation of earth rock cycle geological features properties of rocks soil formation properties of soil

Description :

Engineering classification and properties of minerals and rocks, Nature and properties of the earth's crust, Faults, folds, joints and joint systems, Earthquakes : centre, waves, the centre of the earth, Geologic map of Egypt, Building materials, Concrete materials (aggregates and cement), Geophysics applied in civil engineering, Ground water : distribution G.W, motion of G.W., G.W. Level ,G.W. Pollution ,Problems related to extraction of G.W., Weathering problems ,Field visits to geologic sites.

Course outcomes :

a.Knowledge and Understanding: :

1 -	Define the main terms of formation of earth
2 -	Explain the principals of rock cycle
3 -	List the main items of geological features
4 -	Define the main terms of soil formation

b.Intellectual Skills: :

1 -	Calculate the values of properties of rocks
2 -	Calculate the values of properties of soil

c.Professional and Practical Skills: :

1 -	Draw neat details of rock cycle
2 -	Prepare technical reports for geological features

3 -	Proceed test steps of the properties of rocks
4 -	Proceed test steps of the properties of soil
d.General and Transferable Skills: :	
1 -	Work under stress

Course Topic And Contents :			
Topic	No. of hours	Lecture	Tutorial / Practical
Formation of Earth	2	2	1
Rock Cycle	8	8	8
geological features	2	4	4
properties of rocks	8	8	8
soil formation	4	4	4
properties of soil	4	4	4
Revision			

Teaching And Learning Methodologies :
Interactive Lec.
Discussion
Problem Solving
Lab Exper.
Report / Present.

Course Assessment :			
Methods of assessment	Relative weight %	Week No	Assess What
Final Exam			
Lab Exper.	25.00		
Mid- Exam I, II	10.00		
Quizzes / Assig.	25.00		
Report / Present.	40.00		

Course Notes :
-

Recommended books :
- "Soil Mechanics and Foundation Engineering", K.R. Arora , 2004 Additional References: - Handout notes on MOODLE

Periodicals :
