

# Faculty of Oral & Dental Medicine

Zoology

## Information :

Course Code :	SGS 141	Level	:	Undergraduate	Course Hours :	3.00- Hours
Department :	Faculty of Oral & Den	tal Medicine				

Instructor Information :

Title	Name	Office hours
Lecturer	Dina Magdy Abdel Salam Abdel Aziz	

# Area Of Study :

A relate different body organs to each other anatomically and the use of the proper terms to describe their position.
A name the main functions of cell organelles
A o be able to perform microscopic examination and identification of histological studies

### **Description :**

microscopy (the light and electron), the animal cell and the cell membrane, membranous components, embryology, connective tissue, buccopharengeal cavity, general viscera, venus system of toad, urinogenital system in (male & female) of toad

#### Course outcomes :

a.Knowledge and Understanding: :				
1 -	To relate the function of cell organelles to the ultra structure.			
2 -	To describe the main steps during early embryonic development in			
3 -	To relate different body organs to each other anatomically and the			
4 -	To memorize the basic scientific terminology regarding anatomical			
5 -	To estimate the possible abnormalities resulted from lesions in			
b.Intellectu	al Skills: :			
1 -	To define different types of tissues			
2 -	To name the sites of occurrence of each tissue in the body organs			
3 -	To explain the relation between the anatomical site of the tissue and its function			
4 -	To name the main functions of cell organelles			
c.Professional and Practical Skills: :				
1 -	To examine the parts of the bones and to recognize types of articulations			
2 -	To examine and recognize section in body organs microscopically			
3 -	To illustrate diagrams for different sections in body organs			
4 -	To use the dissecting instruments and light microscope			

http://www.fue.edu.eg

5 -	Microscopic examination and identification of histological studies		
d.General and Transferable Skills: :			
1 -	1 - Recognize of the value and role of lifelong learning, self-assessment and critical thinking in maintaining competency		
2 -	Evaluate personal progress and be able to assess ones weakness and strengths		

# Course Topic And Contents :

Торіс	No. of hours	Lecture	Tutorial / Practical
Introduction	3		
The animal cell and the cell membrane	3		
Membranous components	3		
Membranous and non-membranous components.	3		
The cytoplasmic matrix	3		
The Nucleus	3		
Introduction to immunology	3		
Immunology	3		
Embryology	3		
Epithelial tissue 1	3		
Epithelial tissue 2	3		
Connective tissue	3		

Teaching And Learning Methodologies :	
Lectures	
Clinical training	
Demonstrations	
Role playing and hands on	
Small group discussion	

Course Assessment :				
Methods of assessment	Relative weight %	Week No	Assess What	
1st Mid Term Exam	20.00			
2nd Mid Term Exam	20.00			
class work	20.00			
Final Written Examination	30.00			
Practical Examination	10.00			

# Course Notes :

Department Books available for all students. all biological books

## **Recommended books :**

Brooker's Biology Book Campbell Reece book
