Title	Name	Office hours
Professor	HANAN SALAHELDIN HAMDY MAHMOUD HAMDY ELABHAR	
Lecturer	Dina Mohamed Ibrahim Ibrahim	
Teaching Assistant	Hoda Mohamed Ibrahim Elsayed Bayoumy	

Description :

This is the second course on pharmacotherapy in which students continue their study to gain skills of interpreting and integrating information on etiology , pathophysiology , pharmacology, pharmacokinetics , clinical pharmacology, laboratory investigation and clinical manifestation of different common chronic and acute conditions related to neurologic , psychiatric, endocrine, arthritic, infectious diseases and women's health. The role of evidence based medicine in regard to therapeutic decisions is emphasized and builds upon basic biological, pharmacological and pharmaceutical sciences . Emphasis will be placed on problem solving practical skills by studying analyzing actual patient cases going through their files in hospitals.
