

## Faculty of Oral & Dental Medicine

#### Chemistry

Information	
momation	•

Course Code :	SGS 122	Level	:	Undergraduate	Course Hours :	4.00- Hours
Department : Faculty of Oral & Dental Medicine						
Instructor Infor	mation :					
Title		Name				Office hours

Mahgoub Mohamed Ahmed Mustafa

14

#### Area Of Study :

Professor

At the end of the course the students should have good knowledge of the following topics: Hydrocarbons; Alkyl halides; Alcohols; Ethers; Aldehydes and ketone; Carboxylic acids; Simple aromatic compounds; Isomerism; introduction to lipids, amino acids, and carbohydrates.

### **Description :**

**Organic Chemistry** 

Practical analytical, identification of some organic functional groups

Course Topic And Contents :			
Торіс	No. of hours	Lecture	<b>Tutorial / Practical</b>
Orientation	5	Orientation	Off
Naming	5	Naming	Orientation
Alkanes	5	Alkanes	Alcohols
Alkanes	5	Alkanes	Aldehydes & Ketones
Revision	5	Revision	Revision
First midterm	5	First midterm	Off
Alkynes	5	Alkynes	Quiz
Alcohols	5	Alcohols	Carboxylic Acids
Aldehydes & Ketones	5	Aldehydes & Ketones	Phenols
Revision	5	Revision	Revision
Second midterm	5	Second midterm	Off
Oxygen compounds	5	Oxygen compound s	Quiz

Course Topic And Contents :				
Торіс	No. of hours	Lecture	<b>Tutorial / Practical</b>	
Oxygen compounds	5	Oxygen compound s	amines	
Revision	5	Revision	Hydrocarbons	

# Teaching And Learning Methodologies :

- Lectures
- Demonstrations

Role playing and hands on

Course Assessment :			
Methods of assessment	Relative weight %	Week No	Assess What
1st Mid Term Exam	20.00		
2nd Mid Term Exam	20.00		
Class work	20.00		
Final Written Examination	30.00		
Practical Examination	10.00
