

Faculty of Engineering & Technology

History & Theories of Architecture 4

Information :

Course Code : ARC 322

Level : Undergraduate

Course Hours : 2.00- Hours

Department : Department of Architectural Engineering

Area Of Study :

- Build the student's knowledge regarding:
- The components and the steps of proposing a design program.
 - Theories related to designing community facilities buildings.
 - The design guidelines of selected types of buildings.
- Train the student to
- Classify and analyze constraints that manage the design of a certain kind of buildings.
 - Analyze a wide range of examples of international buildings that represent the theories taught.

Description :

Building Types; Designing community facilities, Educational, Cultural, Health, Recreational, Commercial, Administrative and Tourist buildings.

Course outcomes :

a. Knowledge and Understanding: :

- 1 - Define the phases of the architectural design process
- 2 - Explain the environmental and human factors affecting the architectural decisions.
- 3 - Define design problems.

b. Intellectual Skills: :

- 1 - Inspect social and environmental dimensions affecting the design decisions.
- 2 - Interpret projects objectives to reach optimum solution.

c. Professional and Practical Skills: :

- 1 - Use conceptual sketches to visualize ideas.

d. General and Transferable Skills: :

- 1 - Present ideas effectively.
- 2 - Defend ideas.
- 3 - Review literature and information.
- 4 - Cite relevant literature.

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
History of Theory	4	4	

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
Theory in Relation to Method	4	4	
Synthesis of the design concept	4	4	
Architectural design program; components and steps	4	4	
Introduction	2	2	—
Methods of Evaluation and Design Development	2	2	
Schools design principles and guidelines	4	4	
Hotels design principles and guidelines	2	2	
Presentations	4	4	

Teaching And Learning Methodologies :

Lectures.

Presentation

Assignment

Course Assessment :

Methods of assessment	Relative weight %	Week No	Assess What
Assignments & research	20.00		
Final examination	40.00		
In Class Quizzes	30.00		
Participation	10.00
