

Faculty of Computers and Information Technology

Software Project Management

Information :

Course Code : CS453

Level : Undergraduate

Course Hours : 3.00- Hours

Department : Department of Computer Science

Instructor Information :

| Title | Name | Office hours |
|--------------------|---------------------------------------|--------------|
| Lecturer | Amira Mohey El Din Mohamed El Mandouh | 6 |
| Lecturer | Amira Mohey El Din Mohamed El Mandouh | 6 |
| Lecturer | Amira Mohey El Din Mohamed El Mandouh | 6 |
| Teaching Assistant | Nada Emad Abdelsalam Hussien | 1 |
| Teaching Assistant | Nada Emad Abdelsalam Hussien | 1 |
| Teaching Assistant | Nada Emad Abdelsalam Hussien | 1 |

Area Of Study :

Understand knowledge that enhances the various techniques for planning and managing a technology project.
Use and adopt various techniques for managing a software development team
Comprehend deeply the basic methodologies for software design, development, testing and implementation.
Learn project planning techniques and analytical skills through the use of Microsoft Project Management.
Develop and evaluate different tools for managing users and user expectations

Description :

This course is an introduction to the basic principles of managing a software development or maintenance project. To help understand the steps involved in establishing and managing a software project, we will walk through creating key elements of a project plan. Project planning, scheduling, and control. Project cost management. Resource constrained projects. Monitoring and controlling the software project throughout its life cycle will be presented. A case study approach is adopted during the course. Commercial software packages will be used throughout the course

Course outcomes :

a.Knowledge and Understanding: :

| | |
|-----|---|
| 1 - | Explain the principles and techniques of software project management and project management using real examples |
| 2 - | Identify the ethical and professional issues of software project management |
| 3 - | Discuss different approaches, methodologies, practices and tools used for software project management |

b.Intellectual Skills: :

| | |
|-----|---|
| 1 - | Classify the goals, needs, and requirements of new software project management |
| 2 - | Select and justify the appropriate model in developing software project management for a given problem domain |
| 3 - | Analyze the limitations and constrains for software project management |

c. Professional and Practical Skills :

| | |
|-----|---|
| 1 - | Use DMT facilities effectively for software project management |
| 2 - | Write a technical report of the logic system design . Knowledge representation document according to professional standards |
| 3 - | Apply effective information to construct a complete requirements document for an inference engine |
| 4 - | Deploy effective tools to analyze completely a new expert system |

d. General and Transferable Skills :

| | |
|-----|--|
| 1 - | Apply communications skills in presentation and report writing of knowledge representation |
| 2 - | Work on a team for the development of a requirements document |

ABET Course outcomes :

| | |
|-----|--|
| 1 - | Understand and use the various techniques for planning and managing a software project. |
| 2 - | Comprehend the basic methodologies for software design, development, testing and implementation |
| 3 - | Use project planning techniques and analytical skills using a project management software tool.. |
| 4 - | Evaluate different tools for managing users and user expectations. |
| 5 - | Understand ethical and professional issues of software project management. |
| 6 - | Analyze the limitations and constrains for software project management. |

Course Topic And Contents :

| Topic | No. of hours | Lecture | Tutorial / Practical |
|---|--------------|---------|----------------------|
| Linear SDPM Strategy | 4 | 2 | 2 |
| Linear SDPM Strategy . Continue | 4 | 2 | 2 |
| The Linear SDPM Scoping Phase | 4 | 2 | 2 |
| The Linear SDPM Planning Phase | 4 | 2 | 2 |
| The Linear SDPM Launching Phase | 4 | 2 | 2 |
| The Linear SDPM Monitoring and Controlling Phase | 4 | 2 | 2 |
| The Linear SDPM Closing Phase | 4 | 2 | 2 |
| The Linear SDPM Strategy Summary | 4 | 2 | 2 |
| Midterm Exam | 2 | | |
| Incremental SDPM Strategy | 4 | 2 | 2 |
| The Incremental SDPM Scoping Phase | 4 | 2 | 2 |
| The Incremental SDPM Monitoring and Controlling Phase | 4 | 2 | 2 |
| Presentations | 4 | 2 | 2 |
| Final Exam | 2 | | |

Teaching And Learning Methodologies :

| |
|--|
| Interactive Lectures including Discussions |
| Practical Lab Sessions |
| Self-Study (Project / Reading Materials / Online Material / Presentations) |
| Case Studies |

Course Assessment :

| Methods of assessment | Relative weight % | Week No | Assess What |
|-------------------------|-------------------|---------|-------------|
| Assignments | 5.00 | 4 | |
| Final Exam | 40.00 | 14 | |
| Midterm Exam (s) | 20.00 | 9 | |
| Others (Participations) | 5.00 | | |
| Presentations | 5.00 | 12 | |
| Quizzes | 10.00 | 5 | |
| Team Work Projects | 15.00 | 12 | |

Course Notes :

An Electronic form of the Course Notes and all the slides of the Lectures is available on the Students Learning Management System (Moodle)
