

Faculty of Oral & Dental Medicine

Pedodontics & Public Health

Information :

Course Code : ORP 511

Level : Undergraduate

Course Hours : 2.00- Hours

Department : Faculty of Oral & Dental Medicine

Instructor Information :

Title	Name	Office hours
Associate Professor	Iman Alaaeldin Abdalla Farrag Massoud	9
Lecturer	MARIA NABIL LEITHY DAWOOD	2
Lecturer	ABLA AHMED MOHAMED ALY AHMED	1
Assistant Lecturer	Nada Ashraf Aly Eldemery	
Assistant Lecturer	Heba Elsayed Ibrahim Imama Morgan	
Assistant Lecturer	Dina Nasr Mohamed Shehab Eldin	
Assistant Lecturer	Maha Samy Mostafa El Habbak	
Assistant Lecturer	Nourhan Saad Mohamed Ali	
Teaching Assistant	Rowan Abdelhak Tawfik Abdrabo	

Area Of Study :

Provide student with knowledge & skills necessary for improvement, maintenance & treatment of oral health of infants, children, adolescents & children with special needs.

Enable students to provide preventive care for different pediatric age group

Description :

introduction to pediatric dentistry, first dental visit, eruption and chronology, morphology, occlusion, restoration of primary teeth, rampant caries, behavioural management, local anesthesia

Course outcomes :

a. Knowledge and Understanding: :

1 -	Discuss the scientific principles of sterilization, disinfection and antisepsis.
2 -	Recognize the aim and benefits of pedodontics for (children, dentist and nation)
3 -	State the importance of primary teeth

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
Introduction, eruption and chronology	5		
Normal occlusion in children	5		
Morphology of primary and permanent teeth	5		
Restoration of primary teeth	5		
Behaviour management	5		
First dental visit	5		
Sedation	5		
Local anaesthesia	5		
Management of deep caries	5		
EEC and rampant caries	5		

Teaching And Learning Methodologies :

Lectures
Lecture with discussion
Video tapes a) Posters b) Slides c) Computer projections d) Samples, examples and mock ups e) Spottings

Class discussion

Case studies

Problem solving case

Demonstrations

Hands on training

Course Assessment :

Methods of assessment	Relative weight %	Week No	Assess What
1st Mid Term Examination	15.00		assess knowledge and understanding.
2nd Mid Term Examination	15.00		assess knowledge and understanding
Final Written Examination			
Mid Term Practical Examination	20.00		assess clinical, intellectual and general skills
Oral Examination	10.00		assess knowledge and understanding
Practical Examination	15.25.00		

Course Notes :

- Department books : available for students to purchase from the department secretary.
- Slides and computer presentation used teaching
- Acrylic teeth for cavity preparation for students to purchase from the department secretary
- Natural extracted primary teeth

Recommended books :

- Fundamentals of pediatric dentistry
- Dentistry for the child and adolescent
- Both are available in the faculty library
