

Faculty of Pharmacy

Medical Microbiology

Information :

Course Code : PM 604

Level : Undergraduate

Course Hours : 3.00- Hours

Department : Pharm D

Instructor Information :

Title	Name	Office hours
Professor	Yasser EIMohammadi Mohamed Ragab	1
Professor	Yasser EIMohammadi Mohamed Ragab	1
Associate Professor	Marwa Mahmoud Raafat Abdel Fadiel Hassan	
Associate Professor	MARWA ALI MOHAMED TAMMAM	
Lecturer	Ahmed Said Abuzaid Ahmed	1
Teaching Assistant	Shorouk Samy Aboelela Hemid	
Teaching Assistant	Aya Reda Aly Mohamed	
Teaching Assistant	Nada Essam AboeLezz Ali	
Teaching Assistant	Alaa Atef Fawzy Hassan	
Teaching Assistant	Shorouk Samy Aboelela Hemid	
Teaching Assistant	MENNATALLAH HAZEM METWALLY ZIDAN	
Teaching Assistant	Aya Mostafa Mahmoud Ghareeb	
Teaching Assistant	Nour elhouda Mohamed Nagieb Mohamed Abdelhamed	
Researcher	Cormac Gerard Gahan	

Description :

The course aims at studying microorganisms causing infectious disease of major public health significance in human. The etiology of infectious diseases, their clinical manifestations, route of transmission, treatment and techniques for detection and identification of pathogenic microorganisms are covered. The microorganisms studied in this course include Gram negative and Gram-positive bacteria, mycobacteria, fungi, mycoplasmas, rickettsiae and chlamydiae. Methods for laboratory diagnosis and identification of bacterial pathogens are emphasized in the laboratory.
