

Faculty of Oral & Dental Medicine

Clinical Removable Prosthodonics

Information:

Course Code: RPROS 413 Level: Undergraduate Course Hours: 2.00- Hours

Department: Faculty of Oral & Dental Medicine

<u>Instructor Information:</u>		
Title	Name	Office hours
Lecturer	Ayman Sharif Mahmoud Fateen	
Assistant Lecturer	MOHAMED IBRAHIM ABDULSAMIE AHMED EMAM	
Assistant Lecturer	Mahmoud Saleh Mahmoud Mohamed Fayed	

Area Of Study:

Description:

Classification, Diagnosis and treatment planning, Impression, Jaw relation, Occlusion, Try-in, Delivery, Complain about complete dentures, Relining and rebasing, Relining and rebasing, Revision

Course out	comes :	
a.Knowled	ge and Understanding: :	
1 -	Describe the anatomy and physiology of the oral cavity	
2 -	Describe various steps of history taking and clinical examination including intra and extraoral examination	
3 -	Define different steps for complete denture construction	
4 -	Describe different impression techniques	
5 -	Explain various mandibular movements	
6 -	Recognize jaw relation , basic occlusion , methods of recording jaw realtion in complete denture	
7 -	Describe steps of try in , denture insertion and maintaince of complete dental appliance	
8 -	Identify patient complains after denture insertion .	
9 -	List various types of artificial teeth	
10 -	Describe remounting, repair, relining, and rebasing of dentures	
b.Intellectu	ial Skills: :	
1 -	Interpret normal and abnormal edentulous anatomy and its relationship to complete denture fabrication	
2 -	Explain different factors related to retention and stability of complete denture	
3 -	Assess the typical problems that can occur during complete denture construction.	

Ähis course is designed to familiarize the students with clinical procedures and techniques used in complete denture removable prosthodontics.

[&]quot;ÁThe student will gain experience in the fabrication of complete dentures."

4 -	Make decisions regarding common technical discrepancies and faults using appropriate problem solving skills.		
5 -	Distinguish patient complain and develop the effective measures for their treatments		
c.Professi	onal and Practical Skills: :		
1 -	Perform intra and extra oral examinations		
2 -	Apply procedures of basic impression techniques, jaw relation record, trial and final denture insertion		
3 -	Manipulate the dental material necessary for fabrication a complete denture		
4 -	Construct casts and models and take required radiographs to formulate the best treatment plan according to patient's needs.		
5 -	Manage occlusal disharmonies and post insertion follow up		
6 -	Use various instrument used in fabrication of complete dentures		
7 -	Perform the laboratory steps required to fabricate a complete denture		
8 -	Perform Repair for complete dentures		
d.General	and Transferable Skills: :		
1 -	Dealing with patients with different mental attitude and realizing the personal limitations.		
2 -	Self evaluates the professional abilities, performance and progress		
3 -	Uses the information technology to improve the education through self . Ádirected learning and research work activities		
4 -	develop skills of problem solving as well as working in a prescribed time limit		

Course Topic And Contents :			
Topic	No. of hours	Lecture	Tutorial / Practical
Classification, Diagnosis and treatment planning	2	2	
Impression	2	2	
Jaw relation Mandibular movements and positions	1	1	
Occlusion	2	2	
Try-in	1	1	
Delivery	1	1	
Complain about complete dentures	1	1	
Relining and rebasing			
Revision			

Teaching And Learning Methodologies :		
Lectures		
Clinical training		
Requirements		
Demonstration		

Course Assessment:				
Methods of assessment	Relative weight %	Week No	Assess What	
final writtem exam	25.00			
midterm exam	25.00			
oral exm	10.00			
practical exam	15.00			
requirements	25.00
