

Faculty of Engineering & Technology

Construction Technology

Information :

Course Code : SCM 553 **Level :** Undergraduate **Course Hours :** 2.00- Hours

Department : Department of Structural Engineering & Construction Management

Instructor Information :

Title	Name	Office hours
Lecturer	RANA NABIL FATTOUH KHALLAF	14
Lecturer	RANA NABIL FATTOUH KHALLAF	14
Assistant Lecturer	MOHAMMED TAHER ABDELHAMID MOHAMMED YOUSSEF	
Teaching Assistant	Mohamed Yahia Mohamed Abdelkader	6
Teaching Assistant	Shrouk Awaad Mohamed Awaad	

Area Of Study :

Upon successful completion of this course, the student should be able to:

- Understand the basic concepts and main principles
- Calculate the values of the essential terms

Regarding construction methods earth work & foundation technology temporary structural precast & pre-stressed concrete steel structure scaffolding safety equipment

Description :

Introduction to construction methods, Earth work, Foundation technology, Temporary structural, Precast concrete, Prestressed concrete, Steel structure fabrication and erection, Scaffolding: materials, connections, principles of design and erection, economy, Safety equipment

Course outcomes :

a.Knowledge and Understanding: :

1 -	List the main items of construction methods
2 -	Define the main terms of earth work & foundation technology
3 -	Define the main terms of temporary structural
4 -	List the main items of scaffolding

b.Intellectual Skills: :

1 -	Calculate the values of earth work & foundation technology
2 -	Design the elements of temporary structural
3 -	Solve problems regarding precast & pre-stressed concrete

4 -	Solve problems regarding steel structure
5 -	Design the elements of scaffolding
c. Professional and Practical Skills: :	
1 -	Demonstrate presentation regarding construction methods
2 -	Apply Code provisions regarding temporary structural
3 -	Draw neat details of precast & pre-stressed concrete
4 -	Draw neat details of steel structure
5 -	Prepare technical reports for safety equipment
d. General and Transferable Skills: :	
1 -	Work in a team

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
Construction methods	8	4	4
Earth work & foundation technology	8	4	4
Temporary structural	8	4	4
Precast & pre-stressed concrete	8	4	4
Steel structure	8	4	4
Scaffolding	8	4	4
Safety equipment	8	4	4
Revision	4	2	4

Teaching And Learning Methodologies :

Interactive Lec.
Discussion
Problem Solving
Report / Present.

Course Assessment :

Methods of assessment	Relative weight %	Week No	Assess What
Final Exam	40.00		
Mid-term Exam 1	15.00		
Mid-term Exam 2	15.00		
Quizzes / Assig.	15.00		
Report / Present.	15.00		

Course Notes :

Student Lecture Notes

Recommended books :
