

Faculty of Oral & Dental Medicine

Human Physiology

Information :

Course Code : SGS 281

Level : Undergraduate

Course Hours : 3.00- Hours

Department : Faculty of Oral & Dental Medicine

Instructor Information :

Title	Name	Office hours
Lecturer	Sara Mostafa Kamal Mahmoud	
Lecturer	Noha Sayed Sobhy Elsayed Ibrahim	
Assistant Lecturer	Heba Mohamed Mostafa Ahmed Taha	

Area Of Study :

ÀExplor in details the function of the different system in the body.

ÀDevelop the basic skills required for scientific thinking as well as effective communications and team work skills

Description :

Introduction to human physiology, blood, autonomic nervous system,cardiovascular system and nerve & muscle

Course outcomes :

a.Knowledge and Understanding: :

1 -	Describe the function of the different systems in the body at the organ and cellular levels
2 -	Describe homeostasis and its importance for body functions

b.Intellectual Skills: :

1 -	Distinguish between physiological and pathological performance of different body systems
2 -	Suggest the basic physiological measurements that can be used to test different body systems
3 -	Integrate physiology with other science
4 -	Use acquired knowledge to solve basic clinical problems related to topics taught and learned

c.Professional and Practical Skills: :

1 -	Measure blood pressure and monitor basic vital signs.
2 -	Perform basic examination of the nervous system
3 -	Comment on a normal ECG tracing

d.General and Transferable Skills: :

1 -	Identify the ethical issues involved in scientific and medical work
2 -	Apply the skills required for team work
3 -	Use effective communication skills to present a topic

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
Autonomic nervous system *Introduction	2		
Autonomic nervous system *Sympathetic nervous system	2		
Autonomic nervous system *Parasympathetic nervous system	2		
Blood AThe plasma	2		
Blood ARBCs, blood groups, anaemia	2		
Blood APlatelets	2		
Blood AHaemostasis	2		
Blood AWhite cells	2		
Blood AImmunity	2		
Cardiovascular system ACardiac properties			
Cardiovascular system ACardiac output			
Cardiovascular system AVascular system			
Cardiovascular system ARegulation of arterial blood pressure			

Teaching And Learning Methodologies :

Lectures

Practical training

Course Assessment :

Methods of assessment	Relative weight %	Week No	Assess What
1st Mid Term Exam	15.00		assess knowledge and understanding
2nd Mid Term Exam	15.00		assess knowledge and understanding
Final written Examination	25.00		
Mid Term practical exam	20.00		assess practical and intellectual skills
oral Examination	10.00		assess knowledge , understanding., intellectual and general skills
Practical Examination	15.00
