4 -	Provide appropriate basic patient education.

Course Topic And Contents :

Topic	No. of hours	Lecture	Tutorial / Practical
Specific surgical infections	4		
Specific surgical infections	4		
Gas gangrene	4		
Diseases of salivary glands	4		
Diseases of salivary glands	4		
Accident and emergency surgery (Maxillofacial injuries)	4		
Accident and emergency surgery (Maxillofacial injuries)	4		
Congenital anomalies of the face (cleft lip and palate)	4		
Congenital anomalies of the face (cleft lip and palate)	4		
Congenital anomalies of the ear	4		
Congenital anomalies of pigmented lesions	4		
Congenital anomalies of the vascular lesions	4		

Teaching And Learning Methodologies :

Lectures

Tutorial classes for Small group teaching and case presentation and discussion in the clinic
Unfortunately , there are currently no specific arrangements available to accommodate disabled students

Course Assessment :

Methods of assessment	Relative weight %	Week No	Assess What
Mid Term Practical Examination	20.00		
1st Mid Term Examinations	15.00		
2nd Mid Term Examinations	15.00		
Final Written Examination	25.00		assess knowledge and understanding
Oral Examination	10.00		assess knowledge and understanding , intellectual and general skills
Practical Examination	15.00		assess practical and intellectual skills other assignments / class work and case study to assess student ability to diagnose cases

Course Notes :
